Petition to Adidas: Stop Using Kangaroo Leather!

PETITION
Calling on Adidas to
STOP USING KANGAROO LEATHER

This petition appeals to Adidas to stop using kangaroo leather in its products. Each year, millions of kangaroos are slaughtered in the Australian outback and rural areas. Kangaroo joeys are bludgeoned to death or discarded and left to die.

We, the undersigned, believe the slaughter of kangaroos is morally and ethically unacceptable.

Therefore, we call on Adidas to withdraw its support from the slaughter of kangaroos by ceasing to purchase and/or use kangaroo leather.

Furthermore, we pray that Adidas will investigate and adopt the use of cruelty free synthetic alternatives for all footwear. Thank you.
